DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This three story, two bay brick building with shed roof and brick and metal cornice actually occupies the rear of the lot belonging to 1044 S. Charles St. The building is separate, however, from the rear addition of 1044 S. Charles and was probably built in the 1870's. The first floor area has been converted into a store-front.

The building is three stories in height, about 14' wide, and occupies a lot 69' deep. There is a three story high, two bay deep rear addition. The building is constructed in running bond. The shed roof is capped by a late Victorian brick and metal cornice. There is a single rectangular chimney located on the east side of the rear section of the roof.

The second and third floor window openings have segmentally arched brick lintels with solid wood tympanums. The first floor door and window openings seem to have had round arched lintels but these are partially hidden by the new store-front cornice. All of the sills are wood. All of the window openings are filled with 1/1 double hung sash. There is a modern glass door set beneath a single light transom. The first floor window is filled in and a projecting metal shed cornice extends across the entire store-front area. The entrance is reached by one stone step.

BUILDER/ARCHITECT Edward Kelly

STATEMENT OF SIGNIFICANCE

See under 1044 S. Charles St.

This building was constructed by Edward Kelly who ran a dairy, located at 1044 S. Charles St. The building replaced a two story structure with deep porch set back from Cross St. which formed part of a row of such structures extending along this side of Cross St. in the 1860's and which were undoubtedly a part of Kelly's dairy operation.¹
